

Career Services - 2018 Educators' Job Fair

Fact Sheet

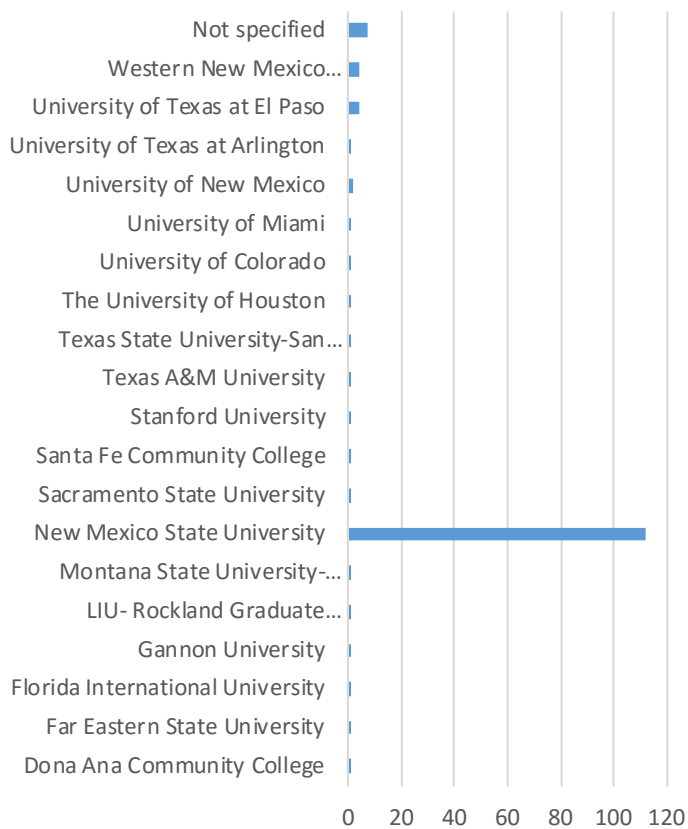

The Educators' Job Fair 2018, co-sponsored by Career Services and the College of Education, was held in April. The Educators' Job Fair was open to new professionals in education, all experienced teachers and school administrators, principals, school counselors, nurses, social workers, as well as students seeking employment in a school setting. In addition, students in non-teaching majors were invited to discuss school districts' respective licensure programs, career options, and employment opportunities. The format of the fair was changed this year so that candidates were allowed to approach district representatives at their respective tables. The majority of the candidates are from New Mexico State University and the region. However, a growing number of candidates from across the United States are utilizing this event to secure employment in a school setting.

Schools/Districts Attending: 64
